

KLUB CHOVATELŮ ČESKOSLOVENSKÉHO VLČÁKA

Statement of the Czech Club of Czechoslovakian Wolfdog Breeders regarding the unauthorised website www.wolfdog.org

The Czech Club of Czechoslovakian Wolfdog Breeders (hereinafter "the Club") informs the breeder community that the website www.wolfdog.org

1. It is not authorized by any breed club or cynological organization to publish or verify pedigree data, health test results or breeding licenses;
2. **operates anonymously**, using untraceable payment channels, thereby deliberately preventing identification of the operators and the application of standard legal remedies;
3. **publishes information whose provenance cannot be verified** in any official stud books or with the competent national canine authorities.

Due to the above facts, the Klub declares that:

- any data originating from the above-mentioned site must be regarded as **unverified and unreliable**;
- forwarding or sharing such data may **damage the reputation of breeders and dog owners** and lead to incorrect conclusions about the origin or health status of individual dogs.

Club recommendations:

- Verify pedigrees, health results and breeding status **exclusively through**:
 - the official stud book of the CMKU/FCI;
 - the Club's breeding counsellor;
 - studbooks of other national cynological unions (SKJ, ENCI,...)
- In case of doubt, contact the Club directly; the contact details listed on <http://www.cswolfdog.cz/> final and authoritative.

Legal notice

The Club reserves the right to **take all legal measures necessary to protect the good name** of its members and of the Czechoslovakian Wolfdog breed should the website www.wolfdog.org continue to publish unverified, misleading or defamatory statements.

Approved by the Club Committee on 01 /07 / 2025.
